

How  
can you  
help me  
when I  
don't  
exist?

In rural Egypt, many girls like Amala have no birth certificate. They grow up as non-people, unable to go to school or get access to public healthcare. Poverty and illiteracy form a vicious cycle from which it's almost impossible to escape.

**BibleLands can help children like Amala look forward to a future free from poverty.**
